EDUCATION

Ph.D. in Civil Engineering **2025-present**

The University of Texas at San Antonio, The United States

GPA until now: 3.95/4.0

MEng in Architectural Engineering **2021-2023**

Kyung Hee University, Republic of Korea

GPA: 4.12/4.3 (97.70/100)

B.E in Environmental Engineering 2013 – **2017**

Ho Chi Minh City University of Natural Resources and Environment, Vietnam

RESEARCH INTERESTS

The current research interests are:

Urban Climate: Development of numerical simulation, deep learning, and remote-sensing satellite methods for analyzing and predicting urban climates. Research focuses on thermal inequities associated with heat vulnerability, surface urban heat island intensity, social vulnerability, and historical redlining.

Indoor environmental modeling. Developing numerical simulation and machine learning methods to predict indoor environments, including airflow patterns, indoor temperature, and daylighting in buildings.

Optimizing energy consumption. Applying deep reinforcement learning to optimize building energy use while maintaining thermal comfort.

HONORS AND AWARDS

Scholarship Award (Amount: $500), 12th International Conference on Indoor Air Quality, Ventilation & Energy Conservation in Buildings (IAQVEC 2026) at the University of Southern California (USC) in Los Angeles.

Academic Travel Fund (Amount: $750), Graduate School, University of Texas at San Antonio; 2026.

Research Travel Award (Amount: $500), School of Architecture and Planning, University of Texas at San Antonio; 2026.

Fully Funded Ph.D. Scholarship, University of Texas at San Antonio, United States 2025 – 2029

Presidential Scholarship, Kyung Hee University, Republic of Korea 2021 – 2023

Japan – Asia Youth Exchange Program (SAKURA Science Program), Kyushu University 2017

Annual Scholarship for Outstanding Academic Performance, Faculty of Environment, University of Natural Resources and Environment, Vietnam

International Conferences:

- International Conference of Green+Digital+Intelligent Built Environment (GDI 2025), hosted by Auckland University of Technology, Auckland, New Zealand.

- International Conference of Green+Digital+Intelligent Built Environment (GDI 2026), hosted by Auckland University of Technology, Auckland, New Zealand.

ACADEMIC SERVICE & LEADERSHIP

Program Coordinator & Session Moderator | Research Colloquium **Fall 2026**

School of Architecture and Planning, The University of Texas at San Antonio

Formulated, planned, and executed the school-wide research colloquium series, managing all operational logistics from inception to completion. Strategically invited, vetted, and scheduled graduate researchers to present cutting-edge findings to senior faculty and the broader student body. Served as the lead master of ceremonies and moderator for live research presentations, facilitating technical Q&A sessions and driving cross-disciplinary academic discourse.

MENTORSHIP

- Fatemeh Khajeh Dehaghani, 2025 – Now, M.S. Student at The University of Texas at San Antonio.

PROFESSIONAL MEMBERSHIP

Member of the Sakura Science Club

Member of the American Association of Geographers (AAG)

Member of the American Geophysical Union (AGU)

TECHNICAL SKILLS

Programming languages and mathematical packages: Python.
Computer-aided design/engineering: OpenFOAM, ANSYS Fluent packages, and Rhinoceros Grasshopper packages.

Others: ArcGIS Pro, Google Earth Engine, SPSS, Linux (Ubuntu), OpenLCA.

LANGUAGES

English: Can read, write, speak, understand, and peer review
Vietnamese: Vietnamese (native)
